3. PROGRAM ARRANGEMENTS

3.1 APEC SME Crisis Management Training Workshop (24-28 May 2010)

Workshop Objectives: With increased globalization of the world economy, SMEs need a mechanism to deal with a variety of economic crises which frequency is expected to be much higher than before. In the 2009 Annual Ministerial Joint Statement and SME Ministerial Statement, the Ministers have encouraged the establishment of the APEC Crisis Management Center (SCMC) proposed by Chinese Taipei. “To improve SMEs’ crisis management capabilities” has also been identified by the 2009 Leader Declaration as an important task for APEC during the coming years. The objectives of the SCMC is to monitor the possible impacts of emerging or existing economic crises on SMEs, conduct study on the strategies of the SME crisis management, and provide training and consultation to SMEs. The Center will be established on 24 May 2010 in Taipei, and the training workshop is a 5-day meeting from 24 to 28 May 2010. The purpose of the workshop is to train the trainees from 11 APEC developing economies to familiarize with the international economic crisis and the strategies to manage the crises. It will provide knowledge such as new globalization trend, the interconnections of global economy, the routes and methods a crisis spreads to the globe, nature and supply-demand conditions of global oil and other raw material markets, and the operation of global financial markets. The trainees are expected to train the SMEs of their home economies when finishing the training.
